Jilted lovers on Cambridge Street
Congregate on the cold concrete
And she's drawing up on your wall
That you take down every fall
Back to back when dark turns black
The morning wakes you with a slap

Don't let love bring you down
You're lucky that you ever found
Such a beautiful thing to fall apart for
Let this love take you high
Though lightning strikes when in the clouds
It's a beautiful thing, to learn to fly
Oh, Love!
Don't let it bring you down

There's a fire two doors down
There are children running around
There's a secret inn your fist
Plastic thimble, golden kiss
Convolutated fairy tales
Come to life when love prevails

Don't let love bring you down
You're lucky that you ever found
Such a beautiful thing to fall apart for
Let this love take you high
Though lightning strikes when in the clouds
It's a beautiful thing, to learn to fly
Oh, Love!
Don't let it bring you down

Thumbelina's at your door
You'll make love in her four-by-four
She's so small as you walk away
Crooked picture in the front foyer
Drunken cupid, shoot away
Make these shadow puppets play

Don't let love bring you down
You're lucky that you ever found

Such a beautiful thing to fall apart for
Let this love take you high
Though lightning strikes when in the clouds
It's a beautiful thing, to learn to fly
Oh, Love!
Don't let it bring you down
Bring you down

Oh, bring you down
Oh, bring you down
Oh, bring you down
