"Skyway Bridge"

Visit "[Skyway Bridge](#)" on MotoLyrics.com

We stay up all night and watch the boats
From underneath the bridge, the trucks fly
And in the bravest moments I watch you
And we take turns looking away

I adore you
I want to follow you
Make a boat out of this cigarette pack
Watch it float away and hope it comes back
With the water under skyway bridge

We balance on the rocks and scuff up our feet
Back inside the car, our song's on repeat
And when the air is damp and filled with morning, we'll
Take our cue
Curl up in the back seat

I adore you
I want to follow you
Make a boat out of this cigarette pack
Watch it float away and hope it comes back
With the water under skyway bridge

The steel men rise and we shut our eyes
Smoke across the bay, now we're driving away
I threw pennies and wishes up to the sky
Watch them sink to the bottom and kiss you goodbye

I adore you
I want to follow you
Make a boat out of this cigarette pack
Watch it float away and hope it comes back
With the water under skyway bridge
