Philosophers of destruction
Foretold the tales of nihil
Ignorance has brought upon your
Inevitable end
I will destroy the foundations
Of humanity
And watch as you tremble in fear
As I take the lives of leaders
And crush all that controls
I'll bring this world to its knees
Bring forth your armies of damnation
Nothing will stand in my way
This is the day earth stands still
Stands still
No more lies no more control
Injustice has become your undoing
Bleed
Close your eyes now picture this place in total ruins
Bleed
Now close your eyes and bring this world to its knees
As I take the lives of leaders
And crush all that controls
I will bring this world to its knees
And bring forth your armies of damnation
Nothing will stand in my way
This is the day earth stands still
No more lies
No more control
This is where history will stop
Panic consumes them all
The conscience of man
Is carrying the weight of the world
And I will not rest until I have drained
The life from this place of desolation
Drain the life from this place of desolation
