Dismantled life  
Exaggerated ruination  
This world reduced to ruin  
The disease of life scoured from the throne  
Watch the vultures leech the evil from the dead  
The poison seed of existence has been rejected  
A defeated dystopia  
Weeps in anguish  
Manipulative intentions  
And forced dominance that once controlled man  
Fade into the edges of a voiceless abyss  
Voiceless abyss  
Existence has been defeated  
This world is reduced to ruin  
A defeated dystopia  
Weeps in anguish  
Manipulative intentions  
And forced dominance that once controlled man  
The dead waste away  
Into the soils of the earth  
An eternity of perdition  
For the damned in there fictitious place  
Nihil remains in the absence of life  
Broken and beaten  
This wasteland can begin it's salvation  
A defeated  
Dystopia  
Is eternally crushed  
A defeated dystopia  
Weeps eternal anguish  
Eternal anguish  
Manipulative intentions  
Intentions  
This is ruination
