For so long I have lived with this affliction,
For so long I can't forget.
In my heart I am burdened by temptation.
To understand is to regret.

I bow to no-one,
I'd fucking die for my beliefs.
But this is senseless and no-one cares if you believe.
I fall beneath you, the crushing wave of my defeat.
Has stirred withing me, another tide of apathy.

The coffins closing, the maggots feast on my decay.
I'm slowly drifting into this hole that I have made.

It feels so cold, without you here
I am drowning in pools of blood.

Fuck you and fuck your sorrow, you left me here to
fucking drown.
As her screams fill the silence, as her warmth returns
to cold.
Will you bleed for forgiveness, as I drive this dagger
home?

In the wake of transgression, in the coldness of
despair.
They will mourn for your ending, and for the life that
you became.

Lets make a toast to all your friends, they will witness
your final breath.
Lets make a toast to all your friends, they will witness
your final breath.

This is the last I fucking love you, before I end your
fucking life.
This is the last I fucking love you, before I end your
fucking life
