the moment you know
how its all gonna end
let me know
well loosing things
isn't what makes me believe
theres no hope

Chorus:

would you say it will be okay
if life's a hand in a poker game
would you say it will be okay
and if I'm gone a while gonna up and break it down

your driving me crazy
when you act this way
its not for you
carelessly play with the end of the world
its a pill

(chorus)

la la la

and I'm gone awhile gonna up and break it down
(repeat 3x)
down down down la la la

we're dancing with danger
i'm loosing my cool
price I pay
so careful were feeling expand while here
not today hey

(chorus)

down down down. . .
