What did I do wrong
Did your eyes just finally see?
Was it something I said
To make you walk away from me?
Well maybe
Baby this wasn't meant to be

Forever isn't what you said
It was someone else's voice instead

Forever isn't what you meant
One breathe away from time well spent
Together

Well I should have known our time was winding down
Just a happy stone
One throw from skipping town

Well maybe
Baby this wasn't meant to be

Forever isn't what you said
It was someone else's voice instead
Forever isn't what you meant
One breathe away from time well spent

No

Forever isn't what you said
It was somebody else's voice instead
Forever isn't what you meant
One breath away from time well spent

Well maybe
Baby this wasn't meant to be
Forever
