Keep the time  
Identify the beat  
Then you'll hear the chime resound  
Calling you to be profound.  
Use your hands to play guitar  
With no guitar at all.  
I don't care if you can talk  
Fast to draw or slow to paw,  
Grab your ax and keep the time  
Identify the beat.  
Then you'll hear the chime resound  
Calling you to be profound.  
Use your hands to play guitar,  
If you can say guitar.  
I don't care if you are tall,  
Black or white, or very small,  
Grab you ax and play guitar  
Play guitar.  
With no guitar at all and make your fingers bleed your  
spirit scream, yeah,  
Play guitar  
Oh play guitar  
With no guitar at all and make your fingers bleed your  
song must sing  
Now play guitar let no one harbor feelings that said  
take it far guitar.
