"Contortionists"

Visit "[Contortionists](#)" on MotoLyrics.com

If we concentrate on a face
Could we conform to it
And be free like contortionists
Who are free to bend around machines
Turn this place around
To first when light came
And all was right
Can we bend that way
Can we calculate
How to be at peace inside
And keep color
If we concentrate
We can calculate
Like contortionists
Bend around this place
If we concentrate
Can we calculate
