It's a new day
Got a clean slate
Gonna get up, fill my coffee cup
Hit the interstate, gonna drive all day back to you

It's been 15 and a half days
I can't take this long distance
Something's missing in every moment without you
But all my troubles fade
Everything falls into place

Where you and I meet
Baby that's the sweetspot
Yeah where you and I meet
Baby that's the sweetspot
When you're have me in your arms
There's no where else I want to be
Where you and I meet
Baby that's the sweetspot

When I feel like I can't deal
Got the whole world on my shoulder
You're the one sure thing that won't bring me down
Cos with you I feel safe
You're the eye of the hurricane

Where you and I meet
Baby that's the sweetspot
Yeah where you and I meet
Baby that's the sweetspot
When you're have me in your arms
There's no where else I want to be
Where you and I meet
Baby that's the sweetspot

We could stay forever this way
While the world spins on and on and on yeah

Where you and I meet
Baby that's the sweetspot
Yeah where you and I meet
Baby that's the sweetspot

When you're have me in your arms
There's no where else I want to be
Where you and I meet
Baby that's the sweetspot

Baby that's the sweetspot
Baby that's the sweetspot
