The air grows cold tonight
Without you by my side
Coming back to your arms
I now know I am whole

Lets wait patiently
As I run down the streets
Screaming at the top of my lungs
That you are the one...

Keep me inside
It's time to watch our love ignite
Coming back to your arms
I now know I am whole

Lets wait patiently
As I run down the streets
Screaming at the top of my lungs
That you are the one

lets wait patiently
As I run down the streets
Screaming at the top of my lungs
That you are the one
