You're bleeding on something to better
Yourself all alone
I'm better than this
I feel special
I'm sick of the role
Because you're mixed up
You make yourself "so cool"
You can save me from
Your sentimental cure
I wanted to be by myself now
I'm sick of the role
You better believe that I'm over
Your every day
Because you're mixed up
You make yourself "so cool"
You can save me from
Your sentimental cure
You're mixed up
You make me feel
Exactly the way you wanna feel
You're mixed up
You make yourself "so cool"
'cause you're mixed up
You make yourself "so cool"
You save me from
Your sentimental cure
