Sew my head against the wall with my mouth open.
But in my head I see red when you lay open.
'cause if I'm going down.
I'm gonna take you wiht me.
Some day I will make you see.
The way you treated me.
And I gave myself away.
I want you to cry for me.
I'm glowing red.
Pacify instead of killing.
But in my head I see red when you lay open.
And I gave myself away.
I wasn't you to cry for me.
It's hard to talk with a gun in your mouth.
How dies it feel to be fucked over.
Sew my head against the wall with my mouth open.
But in my head I see red when you lay open.
Some day I will make you see.
The way you treated me.
So I can be like you.
I don't want to be like you.
