I never forget the day when I smoked my first cigarette
The day you came into my life-will never walk out of my
head

Dressed in black-you looked so cool

I began to stutter and act like a fool

Love ã,ã sex ã,ã intelligence / all in one and the one
was you

I donã,ã't wanna be alone-no I never want to let you go

But now youã,ã're dead-dead and gone, gone with the
wind

Oh girl you changed my life-thanks for everything

The time we spend together were the best days of my
life

I felt like Romeo with Juliette on a 45

Love ã,ã sex ã,ã intelligence / all in one and the one
was you

I donã,ã't wanna be alone-no I never want to let you go

But now youã,ã're dead-dead and gone, gone with the
wind

Oh girl you changed my life-thanks for everything

Iã,ã'm not allone cause youã,ã're always by my side

In my heart in my dreams youã,ã're still alive

Nobody canã,ã't take my memories

Blood begins to rush ã,ã drop me to my knees

Thereã,ã's a place in my heart-thatã,ã's just for you
alone
