American detectives are on the TV.  
They check out what's going on  
On his bleak settee

And high up in this tower block  
Up to the 10th floor  
Are they all betrayed or rotten to the core

There's no other way I can't resist the system

Pan american airways  
You can land on his roof  
You can also abuse his kitchen  
For your ugly junk food  
Hey you yankee soldier  
I know you from Cambodia  
Do you really forget the stories

There's no other way I can't resist the system
