You look like a star & And I feel you're the one
So don't go to far & Away away I can go wrong
Don't live your life on the line & You know you got all
the time
It's not the end so try to enjoy & don't you know they
wanna destroy

You you you
Now we're near to across the border
The soldiers are waiting & give us the order

(Chorus:)

We need a new Rock'nRoll Babylon
Burn MTV down and have fun
We need a new Rock'n Roll Babylon
The war goes on an on and on

Yes, we are no Angels & but why is it not allowed to
sing
About Women they dying & Children they are crying
And just the losers win
You'll never seen it on the video
You have to come to the show
Don't be a fool & Don't be afraid it's not the end
for you you you

Fuck Video Rockstars Fuck niggaz in hot cars
Don't eat limp bisquits they taste like old rockshit

(Chorus:)

We need a new Rock'nRoll Babylon
Burn MTV down and have fun
We need a new Rock'n Roll Babylon
The war goes on an on and on
