She's got these games she likes to play
But she keeps me around in the strangest ways
And when she's alright then I'm just fine
And we live life like we ain't got time
I'm in too deep
But this is where I want
And where I need to be
I'm in too deep
Are you ready for me
She said we can go to vegas
Write our names up in the city lights
Maybe this could last forever
I'll be yours and you'll be mine
She's got this thing for diamond rings
But she keeps me around with the song she sings
And when sh'es alright
Then I'm just fine
And those green eyes, they could light the sky
I'm in too deep
But this is where I want
And where I need to be
I'm in too deep
Are you ready
She said we can go to vegas
Write our names up in the city lights
Maybe this could last forever
I'll be yours and you'll be mine
We'll be down, we'll be out
But this is something I couldn't live without
So trust me now
This is everything
We'll be down, we'll be out
But this is something I couldn't live without
So trust me now
This is everything
Yeah this is everything
Maybe we can go to vegas
Write our names up in the city lights
Maybe this could last forever
I'll be yours and you'll be mine
