So listen up  
We'll make a scene  
Light all the brightest stars for all the world to see  
Cause it's time to go  
Up and leave this place we know  
Jump jump get up if you feel this  
We don't stop wont stop best believe this  
Let it out. Let it out loud.  
Cause here's the best of chances we've had  
So don't go  
We've got plans up and down this coast  
And so we make this toast  
Here's to the days we spend chasing  
All we could ever dream of taking  
So maybe we're making ground  
Can't get enough  
Wont take breath  
Well live it night to night and love this life to death  
This is our story  
Well break it down  
If you scream your hearts out  
Jump jump get up if you feel this  
We don't stop wont stop best believe this  
Let it out. Let it out loud.  
Cause here's the best of chances we've had  
So don't go  
Cause it's all we've got  
Here's to the days we spend chasing  
All we could ever dream of taking  
So maybe we're making ground  
If you could save me  
Down below the city streets  
Shine us through to safety where they see that maybe  
We'll shake this town  
Wake me when we've got only  
These streets, these nights, these stories playing out  
Yeah we can shake this town  
Wake me when we've got only  
These drives with New Found Glory playing loud  
Yeah we can make this count  
Here's to the days we live  
Yeah it feels so amazing when we do

Maybe this is the great escape  
To a place where we can hear the angels sing  
Yeah it sounds so amazing when they do  
Maybe this is the great escape  
And I'm giving all I am to days we spend chasing  
All we could ever dream of taking  
So maybe we're making ground  
If you could save me  
Down below the city streets  
Shine us through to safety  
Where they'll see that maybe we'll shake this town
