Highschool psychopath....

Way back in highschool the joks called me a geek

They superbowed me 10 times a week

They wedgied like a fucking curse

but I got 'em back 10 times worse

I was a highschool psychopath....

Some of the teachers took me aside

Said "Be a stand up. Protect your pride"

Behind my back they just laughed at me

They got it coming just wait and see

I was a highschool psychopath....

School's out for summer. School's out forever

It's three o'clock and the time has come

I've waited 4 years to have my fun

Can't wait to see the look in their eyes

When I show 'em my big surprise

I was a highschool psychopath....
