Whenever we're hanging around
I lose all sight and sound
We all tell lies but this is true
I'm lobotomized 'cause of you

When we go out at night
Everything feels all right
I'm in love and I know it's true
I'm lobotomized 'cause of you

When I first saw you school
I thought your hi-tops were cool

Well I dig holding ya tight
sacrey movies late at night
Drive-in, full moon, sniffing glue
I'm lobotomized 'cause of you

I got you in my show for free
N' you wore your leather for me

When we talk on the phone
Or listen to The Ramones
you got brains enough for two
I'm lobotomized 'cause of you
