Tonight is the night of the living dead  
You better go N' buy a gun today  
If you really like your brains that way  
You better go N' get yourself a knife  
'Cause tonight the dead are coming back to life  
Tonight, tonight, tonight  
Tonight's the night of the living dead  
You better go N' kiss yer girl goodbye  
Before the sunrise she's gonna die  
Find an old house somewhere down the street  
N' lock the door n' throw away the key  
Tonight, tonight, tonight  
Tonight is the night of the living dead
