Everytime she comes by
You know I wanna get high
In the back of a cab
She sets me up with a jab

Everytime she comes to a gig
You know she sets me up with a rig
It's no joke - She makes me wanna poke

You know she puts me to shame
How fast that she finds a vein
When I think people know
I'll jab it 'tween my toes

Everytime she comes to a gig
You know she sets me up with a rig
It's no joke - She makes me wanna poke

She's my little drugstore cowgirl
I'm caught up in her technicolor world
there's no time to clean up my act
I wish she'd lick my sweaty nut-sack

Everytime she comes to a gig
You know she sets me up with a rig
It's no joke - She makes me wanna poke
