Here in London town
There ain't much fun getting around
People don't understand
Ya gotta live for the sun

Well there ain't no scene for surfers
That's the reason why we shouldn't wipe out

Surfers are back N' here to stay
Surfers are back won't go away
Surfers are back N' here to stay

We don't have any boards but we really don't care
We're gonna make it in the California air

Well there ain't no scene for surfers
That's the reason why we shouldn't wipe out

Surfers are back N' here to stay
Surfers are back won't go away
Surfers are back N' here to stay

London city, here we come, Santa Carla, here we come
Hampton Beach, here we come, Santa Monica, here we
come
Lookout everybody here we come
