Baby, look at where we are
So much confusion, where to start?
I love you so, more than you'll ever know

I promised to give my heart to my one true love
I know I can't win your heart so baby someday I'll have
to go

Chorus:
I can't help think of what could be
Living with you, having a family
Can't we please be more?
'cuz friends don't love at all the way I do

I found you and I want to keep
This love that was hiding inside of me
You know you are the one man I wanted so...
Don't look at me while I cry 'cuz I'm gonna lose it
This feeling I have for you won't change as time goes
by

Chorus Repeat

Bridge:
I'd give anything up for you
You know I would
My heart beats as hard as the drums that roll
I can't deny how much I wish I had you so
Your past took the best of you
And left me with nothing
'cuz you'll never love again the way I do...
