Hey, hey, little girl it'd mean the world to me
If you can make everything all right
Oooo little girl, you're outta sight
Hey, hey little girl, I just can't wait
To see you tonight

Oooo little girl, you're outta si-ight
Oooo little girl, you're outta sight

I've been waiting so long
To see your happy face
How I'm feeling with you girl
Is something I can't erase
Hey, hey little girl, when you shake it around
The feeling grooves so tight

Oooo little girl, you're outta sight
Hey, hey little girl, when I watch you bop
And fill me with such delight
Oooo little girl, you're outta si-ight
Oooo little girl, you're outta sight
