She's gonna break your heart
She's gonna tear you apart
And when she breaks your heart
Don't you come crying to me

She's gonna break your heart
She's gonna tear you apart
And when she breaks your heart
Don't you come crying to me

I don't wanna be the one to tell you
She's gonna break your heart
You won't listen to anyone else
You're gonna have to find out for yourself

She's gonna break your heart
She's gonna tear you apart
And when she breaks your heart
Don't you come crying to me

She's gonna break your heart
She's gonna tear you apart
And when she breaks your heart
Don't you come crying to me

She's gonna break your heart
She's gonna tear you apart
And when she breaks your heart
Don't you come crying to me

Don't you come crying to me
Don't you come crying to me
Don't you come crying to me
