Ohhhhh

Won't you pick up your feet
Won't you walk down the street
Like the big girls do, oh
You'll miss me when I'm gone
Will you tell me what's wrong

Cuz you, know you, want to
You know you do
You know you do
You know you do

You know you do
You know you do
You know you dooooo

Too many nights I've been ripped at
Too many times I've been kick down and now I'm on my
own

Hold your head up so high
Look at me in the eye
Like the bad girls do, oh

Don't be crying instead
Tell me what's in your head

Cuz you, know you, want to
You know you do
You know you do
You know you do

You know you do
You know you do
You know you doooo
