if i drink one, i drink a hundred
try to have a little fun, might not come in
'til the sun comes up, i've got a tendency
to get carried away, girl i'm just made that way

chorus

so baby forgive me if i move closer
every time that you kiss me, 'cause i ain't ever
had a feeling hit me so strong, girl i might just keep on
lovin' you as long as i live, i don't know when to quit

your sweet love it's like a habit like a
real good drug and i ain't ever gonna
get enough, 'cause every day girl it just
keeps on getting better, i'm in this thing forever and ever

chorus

so baby forgive me if i move closer
every time that you kiss me, 'cause i ain't ever
had a feeling hit me so strong, girl i might just keep on
lovin' you as long as i live, i don't know when to quit

there's no end to my love
won't let you down, i won't give up
this heart will always beat for you
i couldn't stop it if i wanted to

solo
