Fifty Injuries,
They threw him to his knees,
kicked him till he bled from his ears
Taking another fist, he's not a terrorist, no attempt to
resist arrest
I'm sick of all the lies, it happens all the time, we all
need to fight, coz justice isn't there, so come on if you
dare, so come on if you care
A stick behind the smiling face, the predators all wait in
place, one minister the wrong decision
so come on, keep the fight, they cover up and take
your rights, just what is this war on terror?
i'm sick of all the lies, it happens all the time, we all
need to fight, coz justice isn't there, so come on if you
dare, so come on if you care
no evidence, no evidence, no attempt to resist arrest,
no evidence, no evidence.....
