This town has so many kids
I've never seen before
Milling out into the wet streets
_____ Nintendo Weezer freaks
Our canvas shoes were so dried
Through with rain
It came down all night long
He kept telling me to run faster
I kept singing those stupid songs
You found me the same as last night
Parked in the road with broken headlights
I can't see this going anywhere
So I'll go with you
Whose house was that anyway?
I must've lost you when we all ran
Back and forth on boring road

With streetlights down
She got us home
This town has so many kids that I've never seen before
Milling out into the wet streets
_____ Nintendo Weezer freaks
Our canvas shoes were so dried
Through with rain
It came down all night long
He kept telling me to run faster
I kept singing those stupid songs
You found me the same as last night
Parked in the road with broken headlights
I can't see this going anywhere
So I'll go with you
Whose house was that anyway?
I must've lost you when we all ran
Back and forth on boring road
With streetlights down
She got us home
