Well you become the scholar  
Or is it too soon to tell  
Cause I was never pretending  
And I never intended for me to hate myself  
And if you fall for me  
It's the same in the end  
Cause I was never pretending  
And I never intended for you to be my friend  
Well you become the scholar  
Or is it too soon to tell

Cause I was never pretending  
And I never intended for me to hate myself  
AND if you fall for me  
It's the same in the end  
Cause I was never pretending  
And I never intended for you to be my friend
