So many faces in the dark
And I don't know where to start
A gallery of scars and a twisted lonely heart
Like a dream this I know
Well everything shows
Things are never what they seem and

Remember last April
We left our souls at the dawn and
It fuels you,
Consumes you,
Anecdotes,
The pills you swallow

It's was only yesterday I saw
The sadness in your eyes and
The terror in your soul
And they say life just isn't fair
But everyone knows it's not your fault
They said

Remember last April
We left our souls at the dawn and
It fuels you,
Consumes you,
Anecdotes,
The pills you swallow

But it was truth
That set you free from me
My darling baby

But it was truth
That set you free from me
My darling baby

Remember last April
We left our souls at the dawn and
It fuels you,
Consumes you,
Anecdotes,

The pills you swallow

Well you know it's the pills you swallow
Don'tcha know it's the pills you swallow
