"Alarm Clock"

My alarm clock he ain't working
But I don't really mind
Because he ain't no friend of mine
Keeps waking me up all the time
Singing beep beep beep
Get on your feet
You gotta get a job cos your in too deep
Oh noooo, noooo

Well I don't like doing things that other folk tell me to
do
So I hit him with a hammer and now he's quite subdued
And when I wake up in the morning he don't even make
a sound
And my life ain't slipping away because his hands don't
turn around
Beep Beep Beep
Get on your feet
You gotta get a job cos your in too deep
Oh noooo, noooo

I've never been so happy as what I am right
And people misunderstand because I was made some
joker
Put my smile on upside down
