I guess you never thought about those things I figured  
out  
I was always there for you and yeah I had my doubts  
I was there to pick you up when you were down and out  
So please don't hold your breath for me cause now I'm  
checking out  
I want you to know  
Want you to know  
Want you to know that I know I know  
Know I know  
Sticks and stones may break your bones and words can  
also hurt  
And when it comes from ones you thought you loved  
the pain is worse  
Only friends know all of my secrets and in trust you  
never tell  
I turned my back and you revealed it, mother fucker go  
to hell  
Know I know  
Fuck no I'm not turning my back  
You betrayed my trust and this is how I react  
I know we'll cross paths someday  
And I'll be greeting you with a middle-finger wave  
Know I know
