"Seasons Colours"

Visit "[Seasons Colours](#)" on MotoLyrics.com

Summer, autumn, winter, spring
Changing the colour of everything
From yellow, to orange, from blue to green
Changing seasons, changing your scene

Yellow sand, sparkling sea
Salty skin, you and me
And the summer sun, that summer sun
Orange sky through the trees
Feel the change in the breeze bring in
Autumn leaves, those autumn leaves

Summer, autumn, winter, spring
Changing the colour of everything
From yellow, to orange, from blue to green
Changing seasons, changing your scene

Blue chill, rain, hail and sleet
People rugged up on the street
In the winter cold, that winter cold
Green shoots, there's life in the ground
The air is full of light and sound
And those springtime colours, all those springtime
colours

Summer, autumn, winter, spring
Changing the colour of everything
From yellow, to orange, from blue to green
Changing seasons, changing your scene

Changing seasons, changing your scene
