Written by: John Mellencamp

Someday this will all be over

Nothing lasts forever

Thank god for change

I love you now, we should stay together

No one's crying about a single thing

Large world turning

Live while you can

Live while you can

Large world turning

Live while you can

Live while you can

You may sleep where your lover leads you

Come and brush these crumbs from my bed

Tell me the truth, I will never leave you

I'll be happy by the baby's bed

Large world turning

Live while you can

Live while you can

Large world turning

Live while you can

Live while you can  
When this world becomes an ocean  
We will find the desert  
Right next to the pig's tail  
And watch the summer sun  
Corrugated roofs with little white houses  
Hide the dogs that walk on three legs  
Someday this will all be over  
No one's playing that pissin game  
Large world turning  
Live while you can  
Live while you can  
Large world turning  
No one can see the end  
Large world turning  
No one sees the end  
No one sees the end  
Large world turning  
Live while you can  
Live while you can
