Why do you think there's nobody out there?
No one who wants me and no one who knows
I wait in this place, no one can see me
After all this time could I be so alone?
I walk through this old town and still feel lonely
The winds play sad songs high in the trees
The sun never shines this deep in the forest
Am I in the darkness or is the darkness in me?
I wanna break
I wanna break out
I wanna break
I wanna break out
I want to taste the tears of a lover
Warm as my blood, as wet as a kiss
But it's only dark rain that falls in this old town
Old as my memory and cold as my lips
I wanna break
I wanna break out
I don't wanna fake it
I want to break out
And when I feel lonely
And when I feel lonely
You fly me to the sun
Above this old town
>From the top of the tower
I forget about living, I forget about pain
At the edge of the platform
At the edge of a heartbeat
Above this old town I flew away
I wanna break
I wanna break out
I don't wanna fake it
I want to break out
I wanna break
I wanna break out
I want to break
I want to break out
