I think its time I let you know  
That i can see your hurting soul  
You need to breathe and let it go  
I dont wanna see you feel this low

[Bridge]  
Now here we stand  
Situation at hand  
Its not how we planned  
Just take my hand

[Chorus]  
But I can't bear to see  
You soo unhappy  
Won't someone snap me out of this mess  
I want you here with me  
Just soo unhappy  
Won't someone snap me out of this mess

Im loving you with all my soul  
Lets plan to seed to watch it grow  
Together we can mend this hole  
Its you and me lets take control

[Bridge]  
lets do what we can  
just take my hand

[Chorus]

I plead for us  
Cause its you i trust  
Lets do it for us  
Just take my hand

[Chorus X2]
