Out come the timberwolves
Like Matt Ramone having sex
Underoath - Dinosaurs!
OMG Table!
One question still remains
And it's the most important one
What has all of this
To do with Flasligh Batman?
We waste hours in front of the screen
Hitting refresh all the time
Until we get another chance
To write a witty comment down
This band needs a V A N F L I P!
Or gradute to heroin
Oh my god, that's mest up
I guess it won't endwell
One question still remains
And it's the most important one
Would or would not
Holy Balls do her?
