I turn around and feel the sun on my face
Bare foot in the grass standing next to you
I feel so right
All those flashes of old memories
My past, you and I
All that we've been through
I feel so alive
I was afraid
I was scared to fall
I can't believe that I almost lost it all
So I am standing here locked to you
I realise that I need you now
To make my heart beat fast
You're the only one
And I'm so sorry I'm such a fool
Baby I know that I need you now
You are the only one who makes my heart beat faster
You make my heart beat faster faster
Baby you make my heart beat faster faster
You make my heart beat faster faster
I used to think about destiny
My way left or right
But boy I was running in circles
And now you're standing in front of me
Hands down, you and I
This time I promise
I won't let you go
I was afraid
I was scared to fall
Running from love and I almost lost it all
So I am standing here locked to you
I realise that I need you now
To make my heart beat fast
You're the only one

And I'm so sorry I'm such a fool
Baby I know that I need you now
You are the only one who makes my heart beat faster
Baby you make my heart beat faster faster
Baby you make my heart beat faster faster
You make my heart beat faster faster
So baby let's hold on
'Cuz baby the time goes
You are the only one
And I almost lost it all
So I am standing here locked to you
Realise that I need you now
To make my heart beat fast
You're the only one
And I'm so sorry I'm such a fool
(I'm sorry, I'm sorry, I amâ€¦.)
Baby I know that I need you now
You are the only one
Oh! You make my heart beat faster faster
You make my heart beat faster faster
Baby you make my heart beat faster faster
You make my heart beat faster faster
Oh! You make my heart beat faster faster
You make my heart beat faster faster
Baby you make my heart beat faster faster
You are the only one
Who makes my heart beat faster
