Vanessa: What's it gonna be?  
Are you willingly walking away, from this?  
What's it gonna take?  
Can you really break this love?  
Where you gonna go?  
Tell me, do you know?  
When is your heart in need?  
Cause if you leave, baby, then leave  
Make up your mind  
Before you shut the door

(Chorus - All)

Cause if there's a chance we might've missed  
And if there's a ray of light in this  
Baby, you should know  
That this is where my heart takes over, over  
Over

Rochelle: When we're back in time  
You know we have tried too hard  
To let this fade  
Almost disappeared, 'till we made it here, baby  
And look me in the eye  
Promise I won't cry  
This is your choice to make  
Cause if you go, baby, then go  
You change your mind  
I won't be here, no more

(Chorus - All)

Cause if there's a chance we might've missed  
And if there's a ray of light in this  
Baby, you should know  
That this is where my heart takes over, over

And if there's a small piece left of us  
Somewhere in the matters we have last  
Baby, look at me  
Cause this is where my heart takes over, over  
Over

Frankie: This is where my heart takes over, over

Una: This is where my heart takes over, over  
This is where my heart takes over, over

Mollie: This is where my heart takes over, over

Vanessa: What's it gonna be?  
Are you willingly walking away, from this?

(Chorus - All)

Cause if there's a chance we might've missed  
And if there's a ray of light in this  
Baby, you should know  
That this is where my heart takes over, over

And if there's a small piece left of us  
Somewhere in the matters we have last  
Baby, look at me  
Cause this is where my heart takes over, over  
Over

Rochelle: This is where my heart takes over, over

Vanessa: This is where my heart takes over, over

Roch: This is where my heart takes over, over

Una: Over, over!

Mollie: This is where my heart takes over

Frankie: Ohhhh

(All)  
Over
