Ladykiller, oh oh, run run run
Ladykiller, oh oh, oh oh oh
Ladykiller, oh oh, run run run
Ladykiller, oh oh, oh oh oh

Time, time after time
The same mistakes made over and over
Why, why didn't I try
To take my own advice and stay away

He's got the kinda look that I cannot resist
I'm tempted by his kiss
It's killing me and I can't walk away

Oh oh oh I've jumped right in
I know I've fallen hard for him
But he's creeping inside
Crossing over the line
Better watch out, he's a ladykiller

Oh oh oh what's happening
I know I'm getting hot for him
But I can't hold it back
He's a fatal attack
Better watch out, he's a ladykiller

Stop, stop fooling myself
I know he's a full time operator
Help, professional help, is what I need
He's bad and I can tell

He's got me hooked, got me craving more and more
And I just can't ignore
His poison sinking deep into my veins
Oh oh oh I've jumped right in
I know I've fallen hard for him

But he's creeping inside
Crossing over the line
Better watch out, he's a ladykiller

Oh oh oh what's happening
I know I'm getting hot for him
But I can't hold it back
He's a fatal attack
Better watch out, he's a ladykiller

Ladykiller, oh oh, run run run
Ladykiller, oh oh, oh oh oh
Ladykiller, oh oh, run run run
Ladykiller, oh oh, oh oh oh

He's got me hooked, got me craving more and more
And I just can't ignore
His poison sinking deep into my veins, woah

Oh oh oh I've jumped right in
I know I've fallen hard for him
But he's creeping inside
Crossing over the line
Better watch out, he's a ladykiller

Oh oh oh what's happening
I know I'm getting hot for him
But I can't hold it back
He's a fatal attack
Better watch out, he's a ladykiller

Killer killer
Killer killer
Killer killer killer
Ladykiller
