

The Saturdays

"Promise Me"

Visit "[Promise Me](#)" on MotoLyrics.com

So here we are again, I'm almost giving in
I'm over-listening 'bout who you're with or where you've been
I got drunk with my friends, a list from one to ten
Are you the man that I need, need? (No)

If I was doing this, would you put up with it?
Do what your mama said
Love or live alone
I'm gone
Cause all you ever do

You promise me the world
You promise never to let down a girl
But now I know it's time to go
Tonight I'm gonna go and party party, go without you
I'm gonna go and party party, go without you

Your womanizing games
Although you say you've changed (no)
I guess I always be your option not priority
The best you'll never have
One day you'll wish me back
There won't be no one like me

If I was doing this, would you put up with it?
Do what your mama said
Love or live alone
I'm gone
Cause all you ever do

You promise me the world
You promise never to let down a girl
But now I know it's time to go
Tonight I'm gonna go and party party, go without you
I'm gonna go and party party, go without you

Promise this, promise that
But you won't get me back
You won't find me home alone

Promise this, promise that
But you won't get me back
Someone else will love what you don't

You promise me the world
You promise never to let down a girl
But now I know it's time to go
Tonight I'm gonna go and party party, go without you
I'm gonna go and party party, go without you
