I've never ever had someone I could call the one
Nobody's ever moved me quiet, the way you've done
Why would I ever think of you not by my side
Impossible to picture you not in my life
So why am I sad here, wiping away these tears
And why am I lying, trying to unveil this fear

CHORUS:

Seeing the laughter in your eyes
Seeing the smile I thought was mine
Watching you kiss her lips goodbye
Things I wish I didn't know
If I could wipe this memory
Go back to when that girl was me
The day that I should've stayed with him
And I wish I didn't know
I wish I didn't know (5x)
I'm lying here beside you,
trying to block it out my mind
Just knowing that she touched you,
kills a little more inside
Oh I don't wanna confront you,
Cause you're only gonna lie
But what's it gonna do,
just sit around and watch love die?
So why am I sad here, wiping away these tears
And why am I lying, trying to unveil this fear

CHORUS:

Seeing the laughter in your eyes
Seeing the smile I thought was mine
Watching you kiss her lips goodbye
Things I wish I didn't know
If I could wipe this memory
Go back to when that girl was me

The day that I should've stayed with him
And I wish I didn't know
