Go to sleep
Go to sleep
I'll watch you slip
Spider bite panic attack
I'm lost for words
What more can my friend do
Make a mess
Make a mess
I'll make you cry
Leave you there wondering why
The floor's all gone
I know that I really can't sing
Especially when these words are useless
On and on
And on and on I go
I came here slowly falling down the stairs
Taking everything that's in its way
Apologize, I apologized to you
In and out
In and out is what we'll do
I am stumbling after you
Thank god you're here
Lover and a wreck
Throw it out
Throw it out you'll look divine
Just as simple little lie and then we're done
I know that I really can't sing
Especially when these words are useless
On and on
And On and on I go
I came here before slowly falling down the stairs
Taking everything that's in its way
Apologize I apologized to you
Big part
You finally made it
Knock knock baby answer the door
Be late
I'm stuck in traffic
I shouldn't have guessed but I'm down on the floor
Waterproof then I'll do it again
Waterproof then I'll do it again
Waterproof then I'll do it again

I got the nerve
I swear I tell you
I got the nerve
I shouldn't assume
Assuming
Assuming
Assuming
I came here before falling down the stairs
Taking everything that's in its way
Apologize I apologize to you...
