To your brother, to your sister, to your misses, to your mister.
To your friends, to your foes, give the love around and back around it goes.

It all comes from the top and it spreads right round
Treat a man wrong he's gonna pass it on down
To the next in line, who's probably his wife bringing up his kids
Now watchin' mamma cry
And they pick it up, cause they learn everything
Life has a funny way of going in a ring,
End up growing up in trouble with the law
Standing in the cuffs that the father once wore
Now it seems that every brand new generation
Have all been growing up with cracks in the foundation
Their trying to fill the holes of a whole damn nation
Thats lost its trust (that's lost its trust)
We gotta change before the train leaves the station
and realize the revolution in a revelation
it takes blood,sweat, tears, innovation
It starts with us, it starts with us.
(Chorus)
Yeah, stuffs like, give the love to your brother,
Give the love to your sister,
Give the love to your misses,
Love to your mister
Give the love to your friends,
Love to your foes,
Give the love around and back around it goes (X2)
Round it goes, round it goes,
round it goes goes goes
Give the love around and back around it goes
Oh we're all just folks working in a wheel
Spinning all around life's cruel battlefield
Draw circles in the sand on a rainy day,
Watch it wash away
I bet it shows up on a sunny beach a thousand miles away

Flutter from a butterfly forms a storm
Over half a million people die
Oh we don't care because we're all desensitized
We don't realize we're putting all this shit before our children's eyes
Now every brand new generation
Have all been growing up with cracks in their foundation
We're tryna fill a holes of a whole damn nation
That's lost it's trust (that lost it's trust)
We gotta change before the train leaves the station
And realize the revolution in a revelation
It takes blood, sweat, tears, innovation
It starts with us, it starts with us.

(Chorus)

Give the love around and back around it goes (around it goes)
Give the love around and back around it goes (around it goes)
Love to your friends (around it goes)
To your folks (around it goes)
Give the love around, back around it goes
See the thing about Karma is she loves a bit of drama, yeah
Loves to hunt you down and pay ya back for the things you did
Before you turn a positive to a negative

Better pray before you know exactly who the fuck you're dealing with
This is not a dance rehearsal, let me tell you kid
Whatever you put out there is coming back again
Years may burn (ohh)
Tables gonna turn
Karma's coming back around
Either way you're gonna learn
To give love to your neighbour, love to yourself
It don't matter bout your status
Man your health is your wealth

We can all point a finger but there's four pointing back at yourself
I'll be the bigger man now
Give a little help

(Chorus)

Give the love around back around it goes
Around it goes (x2)
Give the love around back around it goes
Around it goes (x4)
Give the love around back around it goes
