(Verse 1)

I could talk all day long about the news, givin' you the current affairs or my views.
I could talk all night long about a song, givin' you the pointers on where you're goin' wrong.
I could talk all year long about the net, sendin' you the links I think you haven't seen yet.
I'd like to tell you things that I think you've never heard but there are no words.

I could talk all day long about dreams, sewing up your heart so you never see a seam.
I could talk all day about politics, all of the corruption, clean hands, dirty tricks.

(Bridge/Chorus)

But what can I say about something that blows me away without it soundin' like another cliché?
From what I've seen and I've heard, when it comes to you, baby no, there are no, there are no
words.

There are no words.

Yeah I swear this much is true, there ain't no word in this world that describes you.

(Verse 2)

I could talk all day long about life, after so many wars how we're all still alive.
I could speak all night long about the world, how it took me thirty years just to find one girl.
I could shoot shit for days all about guitars, a Gibson or a Fender, it depends on who you are.
But when I try to say somethin' that you never heard, there are no words.

[Lyrics from:]

I could burn your ear off all about space and why we have a moon, why the moon has a face.
If the earth is spinnin' why we all stay in place
Why we can't walk walk, it's gotta be a space race.

(Bridge/Chorus)

But what can I say that's gonna blow her mind away?
Gotta write a classic not a throwaway.

All I've seen, all I've heard, when it comes to you there are no, there are no, there are no words.
There are no words.

Yeah I swear this much is true, there ain't no word in this world to describe you.
Yeah I swear this much is true, there ain't no word in this world that describes you.

(Mark Sheehan Rap)

There are no words to describe or define what's inside you, your feeling, your vibe

Believe me I've tried to break you down to a science
(I) See you in my mind and I open my mouth and it's silence
I can articulate a Shakespeare poem
Even though know I didn't know him I can see where he was goin'
And where he's comin' from I can even catch his flow and then I think of you
I don't know where this metaphor is goin'
Cuz there ain't no words you can understand, only lovers can
You can ask the professor and the madman
If they couldn't find the words, no one can
All I've seen, all I heard
When it comes to you there's just no, just no words

(Ending)

Yeah I swear this much is true, there ain't no word in this world that describes you
That describes you.

Yeah I swear this much is true, there ain't no word in this world that describes you.

There ain't no

There ain't no
