Just to be there by
By your side I would
Carry roses to
All the girls that I've
Loved and kindly spoken to

I would I would I would

Knocked at your door
Yesterday, and your papa said
she left for a brand new place
she wouldn't tell noone
she didn't care for your heart

Your heart, your heart, your heart

I read you diary, love
I wanna fly somewhere new
where my heart is you said
Antananarive where I wanna
live all my life

all my life, all my life, all my life

And now you're calling me
Asking me to come along
Fly to your new home
Antananarive baby will you
be by my side

no, I won't, I won't, I won't

Just to be there by
By your side I would
Carry roses to
All the girls that I've
Kindly loved and spoken to

I would I would I would
