"Danger"

I was only having some fun
When they come and take me away
They cause distress and terrible pain
That was in the month of May

Oh, danger, when the red light's shining bright
Oh danger
There's gonna be a terrible fight

City streets and city lights
Don't impress me not at all
And little boys who like to fight
Don't grow up to be very tall

I've paid the price, I'm not a fool
I don't live inside your rules
I got to pass the time away
Trouble walking right behind
