Reach out for me  
I make blind men see  
Call on you to betray  
The only word you'll obey

Scream your heart out

I'm the cause to your effect  
Serve to your own neglect  
I stand aside you take the blame  
No-one's gonna be the same

Scream your heart out

I'll spin my lies inside your head  
It won't be you it's me instead,  
I'll be with you throughout it all  
I'll desert you when you fall

I'll watch your mind decay  
I'm buried deep a thorn to stay  
Embedded in your failing mind  
Your hopes and dreams so hard to find  
Broke through the mask I've made  
All part of the plan that I laid

I broke the bonds they made for me  
I was blind I could not see  
I drowned myself inside their sin  
To destroy them from within

Scream your heart out
